ARTICLE 3: CANDIDATE PARTICIPATION CONDITIONS FOR LOTS 1 AND 2

Candidate presentation conditions

A single entity may not represent more than one candidate for any given tender (Article R. 2142-4 of the French Public Procurement Code). In the context of this tender, however, the contracting authority authorises the candidate to present multiple offers when acting at the same time as:

- an individual candidate and member of one or more consortia of economic operators;
- a member of multiple consortia of economic operators.

In the event of an application being made by a consortium of economic operators, each member of the consortium must provide all the documents and information certifying their legal, professional, technical and financial capacity. The consortium's capacities will be assessed on an overall basis.

Grounds and conditions of exclusion

Notably under:

- The French Law no. 2016-1691 of 9 December 2016 on transparency, anti-corruption and modernisation of the economy, the so-called "Sapin 2" law;
- Chapter II of the French Monetary and Financial Code setting out provisions for the freezing of assets and the prohibition of making funds available (notably Article L. 562-4 and Article L. 562-5);
- Relevant requirements emanating from accreditation for managing delegated EU funds (Pillar 7 relating to exclusion from accessing financing);

Candidates or their representative in any of the situations set out in Articles L.2141-1 to L.2141-10 of the French Public Procurement Code, or which are on any official exclusion list, shall be excluded from the procedure, whether their situation is established by means of their own declarations or through the application of vigilance measures by the contracting authority.

However, where the exclusion decision is at the discretion of the contracting authority, it shall invite the candidate(s) liable to exclusion to present their observations in order to establish, via all means and within a reasonable period not exceeding 10 days, that the measures required to rectify the failings laying behind exclusion have been taken and, as applicable, that their participation in the tender will not undermine equality of treatment among the bidders.

Where an operator finds itself to be in a position of exclusion during the procedure, it shall notify the contracting authority without delay, which shall apply exclusion on these grounds.

Minimum prerequisites in terms of economic, technical and professional capacity

The contracting authority imposes the following minimum capacity levels on candidates.

To demonstrate its professional, technical and financial capacity, a candidate may request that the capacities of one or more economic operators be taken into account. In such case, it must provide evidence of the capacities of those economic operators and demonstrate that it will have them available for the performance of the contract.

In the case of a temporary grouping of companies, these participation conditions are assessed on a global basis; the application file must include authorisation of the lead entity by its co-contractors, which may take the form of the current DC1 form.

ECONOMIC AND FINANCIAL CAPACITY

- The candidate shall demonstrate an average annual turnover of at least EUR 250,000 excluding VAT during the last three (3) completed financial years.

- In the event that a tenderer submits an offer for both lots, the minimum turnover requirement shall remain EUR 250,000 excluding VAT, provided that the tenderer can demonstrate sufficient financial capacity to perform both lots simultaneously.

TECHNICAL AND PROFESSIONAL CAPACITY

- Minimum permanent headcount of three (3) qualified personnel involved in the management, logistics, installation, commissioning, maintenance, or after-sales support of medical equipment.
- Evidence of successful completion of at least three (3) contracts of a similar nature and complexity involving the supply of medical equipment during the last five (5) years.
- Demonstrated capacity to provide logistics, delivery, installation, commissioning, testing, and operational handover of the equipment supplied.
- Demonstrated capacity to provide user training and technical training for beneficiary personnel, where applicable.
- Demonstrated capacity to provide warranty services, after-sales support, maintenance services, and the supply of spare parts during the warranty period.
- Availability of local, regional, or manufacturer-authorized technical support resources capable of responding to technical issues during the warranty period.

Specific requirements for consortia of economic operators

Grounds for the exclusion of consortia

Where the grounds for exclusion from the tender procedure concern one of the consortium members, the contracting authority shall demand its replacement by an entity not subject to the grounds for exclusion, to take place within 10 days of the lead company receiving said demand. Failing this, the consortium shall be excluded from the procedure;

Form of the consortium

The consortium shall be jointly and severally liable. The lead company is liable for execution of the contract by each of the consortium members with regard to their contractual obligations vis-à-vis Expertise France.

Subcontracting

Grounds for exclusion in the case of subcontracting

Entities subject to grounds for exclusion cannot be accepted as subcontractors.

Where the subcontractor subject to grounds for exclusion is presented at the application phase, the contracting authority shall demand its replacement by an entity not subject to the grounds for exclusion, to take place within 10 days of the candidate receiving said demand. Failing this, the candidate shall be excluded from the procedure.

Presentation of a subcontractor

Subcontractors are to be presented using form DC 4 (Subcontracting Declaration)¹ duly completed by the subcontractor and the candidate, incorporating a statement of the subcontractor's professional, technical and financial capacity, in addition to a sworn declaration that the subcontractor is not subject to any prohibition on participating in public procurement.

ARTICLE 4: PRESENTATION OF BIDS AND SUBMISSION PROCESS FOR LOTS 1 & 2

¹ Form DC4 is available at: <https://www.economie.gouv.fr/daj/formulaires-mise-a-jour-formulaire-declaration-sous-traitance-dans-marches-publics>

Bidders must submit a complete bid incorporating the documents specified below. The requested documents must be signed by the bidder, the lead company of the temporary consortium or each of the members of the consortium.

Application documents

Candidates must submit the following application documents:

- Proof of Business license valid for the year 2025 and who can present registration certificate for Business services from concerned organization
- The annex covering the definition and conditions for processing personal data on behalf of the contracting authority, duly completed;
- Trade License;

- Tax clearance certificate from Revenues & Customs Authority all valid for 2024 and 2025 fiscal year; (or equivalent)
- VAT registration certificate;
- Taxpayer registration certificate;
- A description of the technical resources that meet the participation conditions set out below:
 - o List of references relevant to the object of the contract for projects of similar size, stating the names and phone numbers of the competent contact persons;
 - o Declaration stating the technical tools and equipment available to the candidate for delivery of the services specified in the contract;
 - o Professional qualification from the Ministry of Health, Ethiopian Food and drug authority (EFDA), and ISO or international equivalent certification.
- A description of the economic and financial resources that meet the participation conditions set out below:
 - o Revenue declarations for the last three (3) available financial years;
 - o Currently valid insurance certificates for professional liability;
- The completed and signed Expression of interest form;
- As applicable, the court ruling on receivership
- The safety evaluation questionnaire, for any contract whose execution implies the movement of its personnel (or its subcontractor) in an orange or red zone (in accordance with the regional vigilance maps made available by the French Ministry of Europe and Foreign Affairs (<https://www.diplomatie.gouv.fr/fr/conseils-aux-voyageurs/>));

Bid documents

Candidates must submit a complete bid file containing the following documents. If applying as an international bidder, the subsidiary agent should possess and provide in their bid documents registrations specific to_____.

- The draft contract duly completed, dated and signed, together with all duly completed annexes;
- A technical memorandum including the following information:
 - o Presentation of the company and/or joint venture;
 - o Technical compliance sheet;
 - o Manufacturers, brands and models of the proposed equipment ;
 - o Manufacturer's autorisation certificate(s) confirming distribution rights for the equipment ;
 - o Action plan demonstrating the candidate's capacity to carry out all required installation, training and maintenance works;
 - o CVs, copies of identity documents, diplomas and work certificates for local staff and qualified personnel responsible for supervising activities, installation, training and after-sales service;

- Detailed training plan including daily training programmes and total training duration for equipment requiring training;
 - Detailed delivery and installation schedules;
 - Confirmation of spare parts availability for three (3) years.
- The firm and non-revisable financial offer, submitted together with the duly completed and signed schedule(s) of unit prices. Prices shall be indicated exclusive of tax, as VAT does not apply to the project
- The export control classification form for any contract involving the potential procurement of strategic equipment (military and/or dual-use);
- The authorisation for the manufacture, trade and intermediation of war material for any contract involving purchase of war material of Category A2 with a French company.

Bid validity period

The validity of bids submitted shall be 120 days from the submission deadline.

Bid submission process

Bids submitted in paper format

Bids submitted in paper format will be rejected.

Electronic submission

In order to access the tender consultation space or to submit their bid, bidders must connect to the French government procurement platform at:

<https://www.marches-publics.gouv.fr>

Electronic submission is mandatory. Any submission via other means will be rejected.

The bid submission procedure is detailed on the website www.marches-publics.gouv.fr.

On this site, bidders will notably find a user guide available for download which specifies the platform's conditions of use, notably the technical prerequisites and electronic certificates.

Should they so wish, bidders may make contact by phone on 01 76 64 74 07 on all business days between 9am and 7pm in order to obtain technical assistance with how to complete all the necessary tasks.

In the event of allotment, all lots must be covered by an electronic submission. However, it is possible to make a single electronic submission for multiple lots provided that the lots covered by a bid can be identified without ambiguity.

The costs of accessing the network and of electronic signature shall be borne by the candidate.

Bidders are invited to test the configuration of their work device and to perform a test tender to ensure that their technical environment is functioning as required.

Bidders' attention is drawn to the fact that they must at least have internet browser software. It is not mandatory to have an electronic signature system.

In order to make an offer, bidders must forward files in the following computer formats: PDF, RTF, ZIP, suite Microsoft Office, Libre Office or Open Office. Any computer file in a different format will be declared null and void.

NOTE:

All bid files must be free of computer viruses and must have been previously treated to this end by the bidder, using the latest version of an antivirus software. The same applies to all other files exchanged during this public procurement procedure.

The contracting authority may place any file containing a virus in a security archive. It will therefore be deemed never to have been received.

NB: Bidders' attention is drawn to the time required to deliver large volume electronic files. The average downloading time may vary according to various parameters, such as the technical capacity of the device, the type of internet connection, traffic on the network, etc.

To the extent that the date and time of completed upload constitutes the legal reference for submission of electronic bids, bidders are invited to allow sufficient time for all electronic submissions.

Even though its bid for this public procurement procedure will have been submitted electronically, the bidder undertakes, notably if its bid has been accepted, to provide contractually valid paper documents. In this regard, it also undertakes that the natural person providing the electronic signature also provides their handwritten signature without making any modifications to the documents, to be forwarded to the contracting authority in this format. Lastly, the bidder undertakes to accept notification in paper format, in accordance with standard practices.

ARTICLE 5: ANALYSIS OF APPLICATIONS

Applications are selected by the Evaluation Committee of Expertise France in accordance with the following procedure.

Under Article R.2161-4 of the French Public Procurement Code, the Evaluation Committee may decide to examine offers before applications.

In such cases, the supporting documentation for aptitude and capacity and the evidence relating to grounds for exclusion are only requested by the contracting authority from bidders preselected for award of the tender.

Application supplementary information requests

Before examining applications, should the contracting authority note that requested documents or information are missing or incomplete, it may ask the bidders concerned to complete their application pack within a deadline applicable to all such bidders. The deadline will be specified in the request for supplementary information.

Applications that are incomplete or which remain incomplete following a request for additional information will be eliminated.

Rejection of late applications - Opening bids

The Bid Opening Committee (meeting in non-public session) lists the bids received, the identity of applicants and the composition of the bids submitted.

Bids received after the deadline will be immediately rejected.

Admissibility of applications

In accordance with Article 3 of this document covering the conditions for participation, the Evaluation Committee of Expertise France analyses the admissibility of applications based on the following criteria:

- Proof of Business license valid for the year 2025 and who can present registration certificate for Business services from concerned organization
- The annex covering the definition and conditions for processing personal data on behalf of the contracting authority, duly completed;
- Trade License;
- Registration Certificate from Ethiopian Food and drug authority (EFDA) (or equivalent)
- Tax clearance certificate from Revenues & Customs Authority all valid for 2024 and 2025 fiscal year; (or equivalent)
- VAT registration certificate;
- Taxpayer registration certificate;
- A description of the technical resources that meet the participation conditions set out below:
 - o List of references relevant to the object of the contract for projects of similar size, stating the names and phone numbers of the competent contact persons;

- Declaration stating the technical tools and equipment available to the candidate for delivery of the services specified in the contract;
 - Professional qualification from the Ministry of Health, Ethiopian Food and drug authority (EFDA), and ISO or international equivalent certification.
- A description of the economic and financial resources that meet the participation conditions set out below:
 - Revenue declarations for the last three (3) available financial years;
 - Currently valid insurance certificates for professional liability;
- The completed and signed Expression of interest form;

As applicable, the court ruling on receivership

Application selection

The Evaluation Committee of Expertise France analyses the admissibility of applications based on the following criteria:

- Technical capacity in the area of supply, training and continuous ability to supply essential medical consumables and spare parts.
- Past references five years for project implementation of similar contracts.
- Financial capacity.

ARTICLE 6: BID EVALUATION AND AWARD FOR LOTS 1 AND 2

The bid selection procedure is conducted by the Evaluation Committee of Expertise France in accordance with the following procedure:

Rejection of late bids - Opening bids

The Bid Opening Committee (meeting in non-public session) lists the bids received, the identity of applicants and the composition of the bids submitted.

Bids received after the deadline will be immediately rejected.

Bid analysis

After having verified that the bids received are conforming, admissible and appropriate, the Evaluation Committee of Expertise France analyses the bids from selected bidders in accordance with the following criteria.

Rejection of non-conforming, inadmissible or inappropriate bids

The Evaluation Committee examines all bids received and, in accordance with Article R.2152-1 of the French Public Procurement Code, rejects bids judged to be non-conforming, inadmissible or inappropriate, as applicable, after having implemented the regularisation procedure set out in Article R.2152-2 of said code.

Comparison of bids for selection of the most economically beneficial bid

Bids will be assessed separately in accordance with the following criteria by awarding a score up to the maximum number of points per criterion as set out below:

Criterion 1: price of the goods

The **financial score (FS out of a maximum of 30 points)** will cover the comparison of the financial offers of all candidates having submitted a conforming bid, on the basis of the estimated total lump-sum price for each lot as determined in the Estimated Quantitative Detail sheet of the financial annex.

Criterion 2: Technical offer

Sub-criteria for assessing the technical quality	Maximum number of points
Sub-criterion 1: Technical compliance : equipment specifications, brands/models vs. requirements, spare parts availability for 3 years	25
Sub-criterion 2: Manufacturer's authorisation and distribution rights	10
Sub-criterion 3: Operational capacity (action plan for installation, training and maintenance + delivery and installation schedule + detailed training plan)	20
Sub-criterion 4: Key staff qualifications	15
TOTAL	70

Each technical offer, deemed to be technically conforming, will be attributed a **technical score (TS out of a maximum of 70 points)** by adding up the weighted scores obtained for each sub-criterion.

- ➔ Bids having obtained a score of less than 20 points on sub-criterion 1 (Technical compliance) will be deemed to be inappropriate.
- ➔ Bids having obtained a technical score of less than **50** points will be deemed to be inappropriate.

Award process

An **overall score (OS out of a maximum of 100 points)** obtained by adding together the technical and financial scores (**OS=FS+TS**) will be attributed to each bid that has been assessed for its technical and financial content.

The bidder who obtains the highest overall score will be deemed to have made the most beneficial economic offer and will be awarded the contract.

The contracting authority may decide not to pursue the tender for reasons of public interest.

ARTICLE 7: PROCESSING OF PERSONAL DATA IN THE CONTEXT OF THIS TENDER AND FOR THE PURPOSES OF CONTRACT MONITORING

Under Article 13 or Regulation (EU) no. 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR), the applicants/bidders are notified that personal data, notably name, first name and e-mail address collected when using under the French government procurement platform (<https://www.marches-publics.gouv.fr>) in the context of this tender procedure and execution of the associated contract, may be processed.
